Mirrors and Gulli Frames:

Water should never be put on gilt dry cloth or chamois. This applies to all metal and inconcred goods. After a lacquered bed has once been wet and polished it must be continually polish ed, so the best plan is to keep it dry as long as possible. Reaches are deadly enemies of mirror backs and yearly ruin many millions of dollars' worth, For this reason the old silver back mirfor is passing away, and the new ones are coated with a composition which is proof against reaches and liesects, but which does not give as fine a reflection as the other sort.

Wall Paper Candle Shades.

Extremely pretty and effective candle shades are made from the flowered wall papers, or which there is a large choice in the shops, Almost any color scheme for a dinner table may be as sisted by use of these shades. They are inexpensive and out at all hard to make. It is well before cutting the shades to paste the paper on the thinnest of muslin or cheesecloth, 26 Mr. Carnegie will deliver at Kenyon gives the paper more body and prevents the edges from tearing.
